FLOOR DEBATE

April 18, 2002 LR 459

that some of you have raised. So I hope if you...if you want more detail I'll certainly have a packet made for this so that it's better understood. I would urge your adoption of this. I just simply think that we need to keep looking forward in the state and edu...higher education is one of those. And even though we do, I think, face some difficult times ahead I don't think we should overreact at this stage in terms of the higher education facilities we have. We're still going to need teachers in the future, most of which in this state come from Peru, Chadron and Wayne at this point. I can't remember the exact number. The one I think is probably a little high. But we still have a need for these basic educational units that we've had. Nebraska has been a state for a hundred and thirty-some years, thirty-five years, and I think we need what we have at this point. We have some difficult decisions ahead as to how we're going to adjust, but I think we should still continue to have a vision of Nebraska ahead that's somewhat bright, I hope. Thank you.
